Salem Press Announces the Newest Addition to the Popular *Defining Documents in World History Series:* *The 17th Century (1601-1700)*

Defining Documents in World History: The 17th Century surveys key writing and documents produced from 1601 to 1700. Maps are included to help the reader understand the state of the world during this period. This title contains 49 primary source documents that provide a compelling view of this pivotal period in world history.

The 17th century is a period in history marked by scientific discovery, codification of laws, the development of religious doctrine, civil war, colonization, and the expansion of global trade. The set begins with Galileo's writings about man's place in the universe and concludes with a letter from Father Antonio Vieira condemning slavery. *Defining Documents in World History: The 17th Century* is organized under seven broad sections:

- **Europe;** Science, Religion, and Law
- **England;** Civil War and Revolution
- **Christianity and Society in the East**
- **The Muslim World;** Trade and Toleration
- **European Colonies in the Americas;** The English Mid-Atlantic
- **European Colonies in the Americas;** New England
- **European Colonies in the Americas;** Other Colonies

Each document is supported by a critical essay, written by historians and teachers, that includes a Summary Overview, Defining Moment, Author Biography, Document Analysis, and Essential Themes. Readers will appreciate the diversity of the collected texts, including journals, letters, speeches, political sermons, and laws among others. An important feature of each essay is a close reading of the primary source that develops evidence of broader themes, such as author's rhetorical purpose, social or class position, point of view, and other relevant issues. In addition, essays are organized by section themes, listed above, highlighting major issues of the period, many of which extend across eras and continue to shape life as we know it around the world.

Each section begins with a brief introduction that defines questions and problems underlying the subjects in the historical documents. A brief glossary is included at the end of each document, highlighting keywords that are important in the study of the primary source. Each essay also includes a Bibliography and Additional Reading section for further research.
