

COMPLETE LIST OF CONTENTS

VOLUME 1

Publisher's Note	v	Anorexia nervosa and bulimia nervosa	134
Editor's Introduction	vi	Antianxiety medications	138
Contributors	viii	Antidepressant medications	139
Ability tests	1	Antipsychotic medications	141
Abnormality: Biomedical models	6	Antisocial personality disorder	142
Abnormality: Legal models	10	Anxiety disorders	146
Abnormality: Psychological models	13	Aphasias	150
Achievement motivation	19	Archetypes and the collective unconscious	154
Addictive personality and behaviors	22	Archival data	158
Adler, Alfred	25	Artificial intelligence	161
Adlerian psychotherapy	26	Asperger syndrome	164
Adolescence: Cognitive skills	30	Asian Americans/Pacific Islanders and mental health	168
Adolescence: Cross-cultural patterns	34	Assessment	170
Adolescence: Sexuality	38	Assessment of the Hispanic community	173
Adrenal gland	41	Assimilative family therapy model	176
Adult ADHD	44	Assisted living	180
Advertising	46	Attachment and bonding in infancy and childhood	183
Affiliation and friendship	49	Attention	186
Affiliation motive	54	Attention-deficit hyperactivity disorder (ADHD)	190
African Americans and mental health	57	Attitude-behavior consistency	193
Ageism	61	Attitude formation and change	197
Aggression	64	Attraction theories	200
Aggression: Reduction and control	67	Attributional biases	205
Aging: Cognitive changes	71	Autism	208
Aging: Physical changes	76	Autism spectrum disorder	211
Aging: Theories	79	Automaticity	214
Agoraphobia and panic disorders	83	Aversion therapy	217
Air rage	86	Avoidant personality disorder	218
Albee, George W.	88	Bad-Boy appeal	221
Alcohol dependence and abuse	89	Bandura, Albert	223
Allport, Gordon	92	Battered woman syndrome	224
Altered states of consciousness	93	Beck, Aaron T.	226
Altruism, cooperation, and empathy	96	Beck depression inventory (BDI)	227
Alzheimer's disease	100	Bed-wetting	229
American Psychiatric Association	105	Behavior therapy	232
American Psychological Association	108	Behavioral addiction	237
Amnesia and fugue	111	Behavioral assessment	239
Analytic psychology: Jacques Lacan	113	Behavioral economics	243
Analytic psychology: Carl Jung	118	Behavioral family therapy	246
Analytical psychotherapy	121	Behaviorism	249
Anger	124	Bilingualism	253
Anger management	127		
Animal experimentation	129		

**Content from
Previous Edition**

Bilingualism and learning disabilities	256	Case study methodologies	320
Binet, Alfred	258	Causal attribution	323
Biofeedback and relaxation	259	Child abuse	327
Bipolar disorder	262	Childhood disorders	331
Biracial heritage and mental health	265	Childhood obesity	335
Birth: Effects on physical development	267	Children's depression inventory (CDI)	338
Birth order and personality	271	Children's mental health	339
Blau, Theodore H.	274	Christian counseling	344
Bobo doll experiment	274	Chronic pain management: Psychological impact	347
Body dysmorphic disorder	276	Circadian rhythms	350
Borderline personality disorder	278	Clinical interviewing, testing, and observation	354
Brain damage	281	Coaching	358
Brain lateralization	285	Codependency	360
Brain structure	288	Cognitive abilities test (CogAT)	362
Breuer, Josef	294	Cognitive ability: Gender differences	364
Brief therapy	295	Cognitive behavior therapy (CBT)	367
Bronfenbrenner, Urie	296	Cognitive development: Jean Piaget	372
Bruner, Jerome	297	Cognitive dissonance	375
Bullying	298	Cognitive maps	379
Bystander intervention	299	Cognitive psychology	383
Caffeine and mental health	304	Cognitive social learning: Walter Mischel	388
California psychological inventory (CPI)	305	Cognitive therapy (CT)	391
Cancer and mental health	307	Collectivism	395
Cannon, Walter Bradford	310	College entrance examinations and cultural biases	398
Career and personnel testing	311	Community psychology	400
Career occupational preference system (COPS)	315		
Career selection, development, and change	317		

VOLUME 2

Comorbidity	405	Coping: Terminal illness	459
Complex experimental designs	407	Cosmetics and beauty	463
Computer and internet use and mental health	410	Couples therapy	466
Computer models of cognition	412	Creative reminiscence	470
Concept formation	415	Creativity	474
Conditioning	418	Creativity and intelligence	477
Conduct disorder	424	Creativity: Assessment	479
Confidentiality	426	Crisis intervention	482
Consciousness	428	Cross-cultural psychology	484
Consciousness: Altered states	432	Crowd behavior	486
Constructivist psychology	436	Cultural competence	489
Consumer psychology	438	Culture and diagnosis	490
Cooperation, competition, and negotiation	441	Culture-bound syndromes	492
Cooperative learning	444	Data description	495
Coping: Chronic illness	448	Death and dying	499
Coping: Social support	452	Deception and lying	503
Coping: Strategies	456	Decision making	504

Content from
Previous Edition

Deductive reasoning	508	Endocrine system and behavior	661
Defense mechanisms	509	Endorphins	665
Defense reactions: Species-specific	511	Environmental factors and mental health	668
Dementia	514	Environmental psychology	671
Denial	517	Environmental toxicology and mental health	675
Depression	519	Erikson, Erik H.	678
Depth and motion perception	525	Ethology	679
Despair	528	Evolutionary psychology	682
Development	530	Executive functions	685
Developmental disabilities	534	Exercise addiction	688
Developmental methodologies	538	Exercise and mental health	690
Developmental psychology	542	Existential psychology	692
Dewey, John	546	Experimental psychology	695
Diagnosis	547	Experimentation: Ethics and participant rights	698
Dialectical behavioral therapy	551	Experimentation: Independent, dependent, and control variables	701
Disability: Psychological impact	553	Eye movement desensitization and reprocessing (EMDR)	705
Disaster psychology	557	Eyewitness testimony	707
Discipline	560	Eysenck, Hans	710
Dissociative disorders	563	Facial feedback	712
Dix, Dorothea	566	Factitious disorders	715
Dog psychology	567	Families and behavioral addictions	718
Dolphin psychology	570	Families and substance abuse	721
Domestic violence	573	Family dynamics	725
Down syndrome	578	Family life: Adult issues	727
Dreams	581	Family life: Children's issues	730
Drive theory	586	Family systems theory	733
Drug therapies	589	Father-child relationship	736
DSM-5	593	Fear	739
DSM-5: Controversies	598	Femininity	742
Dysgraphia	602	Feminist psychotherapy	744
Dyslexia	604	Fetishes	747
Dysphonia	607	Field experimentation	748
Eating disorders	610	Field theory: Kurt Lewin	752
Ebbinghaus, Hermann	614	Fight-or-flight response	755
Ecological psychology	615	Flying phobia	757
Educational psychology	618	Forensic psychology	761
Ego defense mechanisms	621	Forgetting and forgetfulness	764
Ego psychology: Erik H. Erikson	626	Forgiveness	768
Ego, superego, and id	631	Freud, Anna	771
Elder abuse	633	Freud, Sigmund	772
Elders' mental health	636	Freudian psychology	773
Electronic media and psychological impact	640	Fromm, Erich	778
Elimination disorders	645	Frontotemporal dementia (Pick's Disease)	779
Ellis, Albert	646	Gambling	782
Emotional abuse	647	Games and mental health	784
Emotional expression	650	Gay, lesbian, bisexual, and transgender mental health	786
Emotional intelligence (EI)	653		
Emotions	655		
Encoding	659		

Content from
Previous Edition

Gender differences	789	Grammar and speech	831
Gender identity disorder	792	Gratitude	835
Gender identity formation	796	Grieving	837
Gender roles and gender role conflicts	799	Group decision making	840
General adaptation syndrome (GAS)	802	Group therapy	844
General aptitude test battery (GATB)	805	Groups	847
Generalized anxiety disorder (GAD)	807	Guilt	851
Genetics and mental health	808	Habituation and sensitization	855
Geriatric psychological disorders	812	Hall, G. Stanley	858
Gesell, Arnold	816	Hallucinations	859
Gestalt therapy	817	Hate crimes: Psychological causes and effects	861
Giftedness	820	Health insurance	864
Gilligan, Carol	824	Health maintenance organizations (HMOs)	866
Gonads	825	Health psychology	868
Gossip	829		

VOLUME 3

Hearing	873	Individual psychology: Alfred Adler	960
Help-seeking	876	Inductive reasoning	964
Helping	879	Industrial and organizational psychology	965
Hierarchy of needs	882	Infant feeding	969
Histrionic personality disorder (HPD)	884	Infant sleep	971
Hoarding	886	Infidelity	974
Holland, John L.	889	Inhibitory and excitatory impulses	978
Homelessness: Psychological causes and effects	892	Insanity defense	982
Homosexuality	895	Insomnia	983
Hope	899	Insomnia and sleep disorders	987
Hope and mental health	902	Instinct theory	990
Hormones and behavior	903	Intelligence	993
Horney, Karen	908	Intelligence quotient (IQ)	997
Hospice	909	Intelligence quotient (IQ) and measuring intelligence	999
Hull, Clark L.	911	Intelligence tests	1001
Human resource training and development	912	Interest inventories	1006
Humanistic psychology	915	International Classification of Diseases (ICD)	1010
Humanistic trait models: Gordon Allport	919	Internet psychology	1011
Hunger	922	Interpersonal attraction	1014
Hypnosis	926	Intervention	1017
Hypochondriasis, conversion and somatization	930	Interviewing	1018
Hypothesis development and testing	934	Intimacy	1022
Hysteria	938	Introverts and extroverts	1025
Identity crises	942	James, William	1027
Implosion	945	Jealousy	1028
Imprinting	947	Jung, Carl	1031
Impulse control disorders (ICD)	951	Jungian psychology	1032
Incentive theory of motivation	954	Juvenile delinquency and development	1035
Incompetency	957	Kelly, George A.	1039

Content from
Previous Edition

Kinesthetic memory	1040	Mental illness: Historical concepts	1180
Kinsey, Alfred	1043	Mental retardation	1184
Kleptomania	1044	Midlife crisis	1189
Kohlberg, Lawrence	1045	Milgram experiment	1191
Kraepelin, Emil	1046	Miller, Neal E., and John Dollard	1193
Kübler-Ross, Elisabeth	1047	Millon, Theodore	1194
Kuder occupational interest survey (KOIS)	1048	Mindfulness	1197
Lacan, Jacques	1050	Minnesota multiphasic personality inventory (MMPI)	1199
Language	1051	Misbehavior	1201
Latinos and mental health	1057	Mischel, Walter	1205
Law and psychology	1060	Mood disorders	1206
Leadership	1064	Mood stabilizer medications	1210
Learned helplessness	1067	Moral development	1211
Learning	1070	Mother-child relationship	1215
Learning disorders	1076	Motivation	1218
Lewin, Kurt	1079	Motivation: Intrinsic and extrinsic	1222
Linguistics	1080	Motor development	1223
Little Albert study	1085	Multicultural disability competence	1226
Lobotomy	1087	Multicultural psychology	1230
Logic and reasoning	1088	Multiple intelligences	1232
Long-term memory	1093	Multiple personality	1235
Lorenz, Konrad	1096	Munchausen syndrome and Munchausen syndrome by proxy	1238
Love	1097	Murray, Henry A.	1240
Luminosity	1101	Music, dance, and theater therapy	1241
Marijuana	1104	Myers-Briggs personality type indicator	1245
Marijuana dependence	1107	Narcissistic personality disorder (NPD)	1248
Marriage	1109	Narcolepsy	1249
Marriage and family therapists	1113	National Institute of Mental Health (NIMH)	1253
Masculinity	1117	Native Americans/Alaskan Natives and mental health	1254
Maslow, Abraham	1118	Nearsightedness and farsightedness	1256
Masters, William H., and Virginia E. Johnson	1119	Nervous system	1259
May, Rollo	1120	Neurons	1262
McGraw, Dr. Philip	1121	Neuropsychology	1265
Media exposure and mental health	1123	Neurotic disorders	1268
Media psychology	1126	Neurotransmitters	1272
Meditation	1131	Nicotine dependence	1273
Meditation and relaxation	1134	Nonverbal communication and social cognition	1275
Memory	1138	Nutrition and mental health	1279
Memory: Animal research	1142	Obesity	1284
Memory disorders	1146	Observational learning and modeling therapy	1286
Memory: Empirical studies	1149	Observational methods	1290
Memory: Enhancement	1152	Obsessive-compulsive disorder	1293
Memory: Physiology	1155	Oedipus complex	1298
Memory: Sensory	1159	Operant conditioning therapies	1299
Memory storage	1164	Optimal arousal theory	1302
Men's mental health	1168	Organizational behavior and consulting	1306
Mental blocks	1172		
Mental health parity	1176		
Mental health practitioners	1177		

Content from
Previous Edition

Pain	1309	Paranoia	1318
Pain management	1312	Parental alienation syndrome (PAS).	1321
Panic attacks	1316		

VOLUME 4

Parenting and behavioral addictions.	1325	Projection	1445
Parenting styles	1328	Psychoanalysis	1449
Parkinson's disease.	1331	Psychoanalytic psychology.	1454
Passive aggression	1334	Psychoanalytic psychology and personality: Sigmund Freud	1458
Pattern recognition.	1335	Psychobiology	1461
Pattern vision	1338	Psychologically healthy workplace	1465
Pavlov, Ivan Petrovich.	1341	Psychology and film	1468
Pavlovian conditioning.	1342	Psychology: Definition	1471
Peabody individual achievement test (PIAT).	1346	Psychology: Fields of specialization	1475
Peak experiences	1347	Psychology: History	1479
Penis envy	1350	Psycho-oncology	1486
Person-centered therapy (PCT)	1352	Psychopathology	1488
Personal constructs: George A. Kelly	1356	Psychopharmacology	1494
Personality disorders	1359	Psychosexual development	1498
Personality interviewing strategies	1363	Psychosomatic disorders	1502
Personality: Psychophysiological measures	1367	Psychosurgery	1506
Personality rating scales.	1371	Psychotherapy: Children	1510
Personality theory.	1374	Psychotherapy: Effectiveness.	1514
Personology theory: Henry A. Murray	1378	Psychotherapy: Goals and techniques	1518
Pervasive developmental disorders.	1381	Psychotherapy: Historical approaches	1521
Philosophy and psychology	1383	Psychotic disorders	1525
Phobias	1386	Punishment	1528
Physical development: Environment versus genetics	1389	Qualitative research.	1532
Piaget, Jean	1393	Quality of life.	1534
Pinel, Philippe	1394	Quasi-experimental designs.	1536
Pituitary gland	1395	Race and intelligence.	1541
Placebo effect	1398	Racism.	1545
Play therapy.	1400	Radical behaviorism: B. F. Skinner	1548
Pornography addiction	1403	Rape.	1552
Positive psychology	1406	Rape and sexual assault	1556
Postpartum depression.	1408	Rational emotive therapy	1558
Post-traumatic stress (PTS)	1410	Reactive attachment disorder (RAD).	1563
Power.	1415	Reality therapy.	1565
Prejudice	1418	Reality TV	1568
Prejudice and stereotyping.	1423	Recency effects	1571
Prejudice reduction	1425	Reflexes	1574
Prenatal physical development	1429	Reflexes in newborns	1577
Problem-solving stages.	1433	Reinforcement.	1580
Problem-solving strategies	1436	Relaxation response: Herbert Benson	1584
Procrastination.	1439	Religion and psychology.	1586
Profiling.	1442	Religiosity	1590

Content from
Previous Edition

Repressed memories	1594	Self-perception theory (SPT)	1679
Research ethics	1596	Self-presentation	1683
Reticular formation	1600	Seligman, Martin E. P.	1687
Retirement	1603	Selye, Hans	1688
Risk assessments	1606	Sensation and perception	1689
Road rage	1608	Senses	1692
Rogers, Carl R.	1610	Separation and divorce: Adult issues	1695
Romantic addiction	1611	Separation and divorce: Children's issues	1698
Rorschach, Hermann	1613	Separation anxiety	1701
Rorschach inkblots	1614	Sex addiction	1704
Rosenhan experiment	1616	Sex hormones and motivation	1706
Rule-governed behavior	1617	Sexism	1709
S-R theory: Neal E. Miller and John Dollard	1622	Sexual abuse: Impact	1713
Sadism and masochism	1625	Sexual behavior patterns	1715
Sampling	1628	Sexual dysfunction	1719
Satir, Virginia	1632	Sexual harassment: Psychological causes and effects	1725
Schizoid personality disorder (SPD)	1633	Sexual orientation	1727
Schizophrenia: Background, types, and symptoms	1635	Sexual predatory behaviors	1731
Schizophrenia: High-risk children	1638	Sexual variants and paraphilias	1734
Schizophrenia: Theoretical explanations	1644	Shift work	1738
Schizotypal personality disorder	1648	Shock therapy	1742
Scientific methods	1650	Short-term memory	1746
Seasonal affective disorder	1656	Shyness	1749
Self	1660	Sibling relationships	1751
Self-actualization	1665	Signal detection theory	1754
Self-disclosure	1668	Skinner, B. F.	1758
Self-efficacy	1672	Skinner box	1759
Self-esteem	1674	Sleep	1760
Self-help groups	1677		

VOLUME 5

Sleep apnea	1767	Spirituality and mental health	1816
Sleep disorders	1769	Split-brain studies	1818
Sleep hygiene	1772	Sports psychology	1822
Smell and taste	1775	Stanford-Binet test	1826
Social identity theory	1778	Stanford prison experiment	1828
Social learning: Albert Bandura	1782	State-trait anxiety inventory (STAI)	1830
Social networks	1786	Statistical significance tests	1832
Social perception	1790	Stepfamilies	1836
Social psychological models: Erich Fromm	1793	Stimulant medications	1838
Social psychological models: Karen Horney	1797	Strategic family therapy	1840
Social schemata	1799	Stress: Behavioral and psychological responses	1844
Social support and mental health	1803	Stress: Physiological responses	1849
Sociopaths	1806	Stress-related diseases	1852
Speech disorders	1808	Stress: Theories	1856
Speech perception	1812	Strong interest inventory (SII)	1860

Content from
Previous Edition

Structuralism and functionalism	1863	Transtheoretical model	1965
Stuttering	1867	Transvestism	1966
Substance abuse and Mental Health Services		Twin studies	1968
