

American Industry and Careers

Contents Categorized by Career Cluster

The industries that appear in *Survey of American Industry and Careers* have been categorized by the following sixteen career clusters to make it easier to understand which industries provide opportunities to pursue specific career paths. For those interested in a particular job or occupation, the next section of this index lists selected occupations. Some positions, such as chief executive officer, administrative assistant, and payroll manager, can be found in nearly every industry, so mentions of these positions were indexed only when they were discussed at length or played a significant role in a particular industry.
