

Table of Contents

Publisher’s Note	vii
Introduction	ix
List of Contributors	xi

Section One – Metabolism Basics

Antidiuretic Hormone	1
Autoimmune Disorders	3
Banting and Best Isolate the Hormone Insulin	7
Herbert Wayne Boyer: Production of Human Insulin	8
Carbohydrates	9
Carl F. Cori: The Metabolic Relationship between Glucose and Glycogen	11
Fluids and Electrolytes	12
Endocrine Glands	16
Endocrinology	18
Pediatric Endocrinology	22
Exercise Physiology	24
Gastrointestinal System	29
Glucagon	33
Glucose	36
Glycolysis	37
Insulin	42
Ketone Bodies	44
Kidneys	46
Krebs Cycle	52
Lipids	53
Liver	58
Nephrons	62
Oxidative Phosphorylation	63
Pancreas	65
Pituitary Gland	70
Protein	72
Sanger Determines the Primary Structure of Insulin	73

Section Two – Alterations in Metabolism

Antibiotics	77
Cushing’s Syndrome	81
Cystic Fibrosis	83
Diabetes and Autoimmunity	88
Diabetes and Genetics	90
Diabetic Ketoacidosis	93
Diabetic Nephropathy	95

Diabetic Neuropathy	97
Diabetic Retinopathy	101
Diabetic Vasculitis	104
Fatty acid Oxidation Disorders	106
Genetic Diseases	107
Gestational Diabetes	112
Health Impact of Sugar	115
Hyperadiposis	117
Hypoglycemia	118
Insulin Resistance	122
Liver Disorders	123
Metabolic Syndrome	127
Neonatology	130
Nephrology	135
Obesity	139
Obesity, Childhood	144
Pancreatitis	147

Section Three – Pharmacological Treatments

Genetic Engineering	149
Insulin Pumps and Smartphone Programs	154
Treatments for Gestational Diabetes	156
Treatments for Type 1 Diabetes	158
Treatments for Type 2 Diabetes	160

Section Four – Non-Pharmacological Treatments

Bariatric Surgery	167
Berberine	169
Biofeedback and Relaxation	171
Chromium as a Dietary Supplement	174
Complementary and Alternative Treatments for the Complications of Diabetes Mellitus	177
Diabetes: Homeopathic Remedies—Evaluating Diabetes Treatment Claims	180
Gymnema’s Therapeutic Uses	180
Lipoic acid: Lipoic Acid for Diabetic Neuropathies	181
Liposuction	181
Magnesium: Magnesium and Diabetes	183
Natural Treatments for Diabetes	183
Oral Hypoglycemics: Complementary and Alternative Treatments	189
Other Treatments for Gestational Diabetes	191
Other Treatments for Type 1 Diabetes	192

Other Treatments for Type 2 Diabetes	194	Gingivitis	252
Surgical Procedures for Type 1 Diabetes	196	Health Insurance and Diabetes	254
Section Five – Diet		Heart Attack	257
Dietary Approaches to Stop		Heart Disease	261
Hypertension (DASH) Diet	199	Hypercholesterolemia	265
Keto Diet	201	Hypertension	267
Low-Glycemic-Index Diet: Dietary		Lifestyle Changes to Manage	
Changes and Type 2 Diabetes	202	Gestational Diabetes.	272
Mediterranean Diet	203	Lifestyle Changes to Manage Type 1 Diabetes	274
Nutrition	205	Lifestyle Changes to Manage Type 2 Diabetes	276
Omega-3 Fatty Acids	210	Minimally Conscious States	278
Vitamins and Minerals	211	Monitoring your Own Insulin	280
Section Six – Symptoms and Laboratory Testing		Periodontitis	282
Diagnosis of Gestational Diabetes	217	The Psychologic Effect of Diabetes	283
Diagnosis of Type 1 Diabetes.	217	Reducing your Risk of Gestational Diabetes	285
Diagnosis of Type 2 Diabetes.	218	Reducing your Risk of Type 1 Diabetes	286
Glucose Tolerance Test	220	Reducing your Risk of Developing	
Screening for Type 1 Diabetes	221	Type 2 Diabetes	286
Screening for Type 2 Diabetes	221	Risk Factors for Diabetes Insipidus	287
Symptoms and Screening of Diabetes Insipidus	223	Risk Factors for Gestational Diabetes	289
Symptoms of Gestational Diabetes	224	Risk Factors for Type 1 Diabetes.	290
Urinalysis	224	Risk Factors for Type 2 Diabetes.	290
Section Seven – Living with Diabetes		Seizures	292
Acidosis.	227	Stem Cells	296
Candidiasis	228	Substance Abuse and Diabetes	301
Coronaviruses and Diabetes	232	Sugar Industry	303
Dehydration.	233	Ulcers	305
Dermatopathology	236	Urinary Disorders.	308
Diabetes and the Risk for Dementia	238	Vasculitis	312
Dialysis	240	Wounds	315
Erectile Dysfunction	244	Appendices	
Gangrene	246	Bibliography and Journals.	321
Gene Therapy	248	Glossary.	333
		Index	389
